## DIAL IN YOUR BAG TODAY

What's the most important number in golf? How far your carry yardage is with each club.

COME IN FOR A **1 HOUR SESSION** TO WORK WITH OUR PROS TO DIAL YOUR BAG IN FOR THE SEASON.

Each player will receive the following during the session:

**Determine your carry and total yardage for each club.** Use this information to know if you can carry a bunker in front of the green, or a creek that crosses the fairway. You can be more accurate when making club decisions and take the guessing out of the game.

**Ensure proper gapping through out the bag.** We will ensure that your set free of any major yardage gaps from one club to the next. *Be confident when you have a scoring club in your hands.* Ideally we are looking for 10-15 yard gaps in our scoring clubs.

**Lie and loft bend recommendations for your club set.**

**Golf club recommendations if needed to fill a gap.**
